Worldwide Perspective on the Energy Sector Workshop

Fueling Innovation: How the Next Generation Drive the Energy Industry Forward

April 9, 2025

About Me

Who am I?

- Young Professionals Committee (YPC) Chair
- Canadian National Representative
- 10+ years of energy industry experience
 - Analyst
 - Economist
 - Researcher
- Academic background
 - Applied Energy Economics
 - History
 - Public Policy

Young Professionals Committee

About the Team

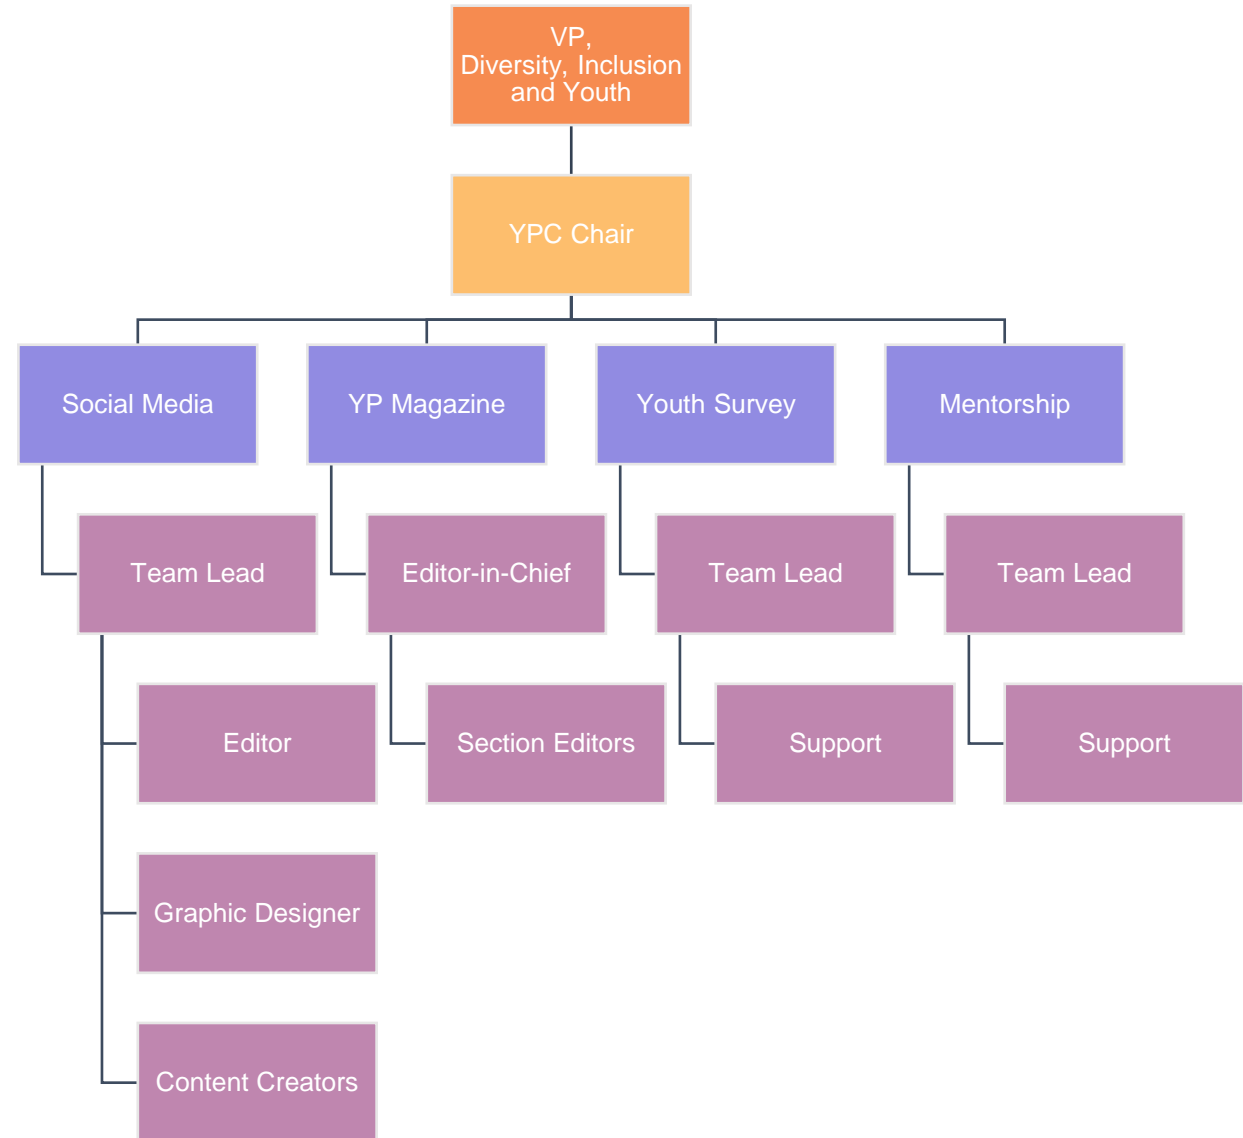

- 30+ members, 23 nationalities
- Cross disciplinary and wide range of experience
- Upstream, midstream, downstream

Core Projects

- Social Media
- YP Magazine
- Youth Survey
- Mentorship Programme

Other Opportunities

- Youth Forum & Congress
- Local/National Initiatives

Best Practices

Foster Inclusive & Supportive Environments

- Create and support spaces where other young professionals feel encouraged to speak up and contribute meaningfully

Bring Forward Unique Perspectives

- Share personal insights on pressing industry topics; diverse viewpoints drive innovation and broaden understanding

Champion Youth-Led Ideas & Initiatives

- Actively promote and help implement ideas from young professionals in panels, projects, and events

Contribute to Program Development

- Help shape the future of energy by contributing to strategic planning and theme-setting for youth initiatives

Engage in Youth Forums & Congresses

- Offer support to participate in events to network, collaborate, and share ideas with global peers
